**The UK Registrars Group provides a forum for exchanging ideas and expertise between registrars, collection managers, exhibition organisers, museum suppliers and other museum professionals through lectures, seminars, workshops and web resources in the United Kingdom, Europe and worldwide.**

The group strives to establish and promote standards of good professional practice through publications and seminars and to support national and international standards in relevant fields of work. The Group also seeks to provide advocacy and representations in relevant consultations and sectoral developments, where required by its membership. We rely on our membership to ensure the dynamism of our organisation and we encourage ideas from all our members.
